## **PART A: Evaluate your progress towards the degree in the just-completed semester.**

I. **Coursework:** list classes taken with credits and grades (if known). Specify any required courses taken.

II. **Committee:** list your committee members and any activity (e.g., meetings) that transpired.

III. **Progress: list any degree accomplishments:** defining research interests, specialized training, field work accomplished or planned, grants submitted or received (titles and amount), exams taken, thesis filed (give title). Refer back to the form from last semester to compare your progress against the goals laid out at that time.

IV. **Professionalization:** specify any conferences attended, papers presented, submitted, or published (with titles), awards, or other accomplishments. Be specific as possible.

**PART B: List your general and specific goals for the upcoming semester (and summer) and how you plan to meet them.** E.g., courses you plan to take, any further requirements that will be completed, exams, fieldwork, skills or language to be learned, thesis-writing, grant-writing, presentations, submitting publications.
