

## Bachelor of Arts in Business Administration

### Area of Specialization: *Business and Marketing Geography*

#### **Description**

The *Business and Marketing Geography* area of specialization provides is recommended to students seeking employment in the private sector as a geospatial location analyst, often referred to as business geographers, business GIS, strategic management. This curriculum also provides competitive educational background for those who will be pursuing additional post graduate education to become a real estate market analyst, an appraiser, an MAI. The private sector has a shortage of qualified people in this field. According to the US Department of Labor, this field ranks alongside biotechnology and nanotechnology for “need” in the US and global economies. Students will learn the basic skills to perform geospatial market analysis. Students who pursue primary career paths such as management will find that their ability to make market sensitive decisions is improved if they also are familiar with how the analyst creates the reports and recommendations they review to make their decisions. Job Prospects include:

- Strategic location analyst with a multi-branch retail firm; Market analyst with a Real Estate Investment Trust
- Risk manager with a bank or other financial institution; Entrepreneur
- Educational background towards certification as an appraiser (MAI)
